

MOVEit Automation Administrator Training

MOVEit Automation provides advanced workflow automation capabilities without the need for scripting. MOVEit Automation works with MOVEit Transfer or any other similar file transfer systems (including FTPs) to quickly automate new workflows, significantly reducing the likelihood of error in repetitive processes.

During the MOVEit Automation Administrator Training, you will develop the skills needed to perform MOVEit Automation Administration.

The training is delivered in two parts.*

MOVEit Online Training Videos

Access will be granted to up to 10 admins for 1 year starting as soon as we receive the user contact information from you

Personalized Training (1 Hour)

After you get a chance to review the online videos, you can schedule your personalized live training session

*The MOVEit Automation Administrator Training will be accessible to up to 10 online users and 1-personalized company training with up to 10 attendees. All sessions must be completed within 6-months of purchase.
