

MOVEit Transfer Administrator Training

MOVEit Transfer enables the consolidation of all file transfer activities to one system to ensure better management control over core business processes. It provides the security, centralized access controls, file encryption and activity tracking needed to ensure operational reliability and compliance with SLA, internal governance and regulatory requirements.

During this MOVEit Transfer Administrator Training course, you will develop the skills needed to perform MOVEit Transfer Administration.

The training is delivered in two parts.*

MOVEit Online Training Videos

Access will be granted to up to 10 admins for 1 year starting as soon as we receive the user contact information from you
